

CENTURY GROUP

FOR IMMEDIATE RELEASE:

Century Group Turns 20

El Segundo, California – February 2, 2010 – Century Group celebrates its 20 year anniversary in February as a premier professional search and project consulting firm specializing in finance and accounting. Founded in 1989 by Harry Boxer, who maintains an active role as Chairman, Century Group has expanded to three locations over the years (Orange County, Glendale and the El Segundo headquarters) but has remained singularly focused on uniting financial professionals with the diverse and growing base of businesses/industries who seek their skills and expertise. CEO Ron Proul attributes the company's ongoing success to its commitment to the finance segment of the workplace over the past two decades. "By targeting a specific type of professional we have been able to build upon our knowledge base and deepen relationships, which translates into more effective and efficient results on behalf of those we represent. Doing one thing and doing it really well for 20 years in a variety of market conditions, has placed us in a perfect position to take advantage of the current economy which we believe has regained its traditional base and is poised for growth."

"Also unique to our industry is the stability of our own workforce with 50% of our associates having worked with Century Group for 10 years or more and a full 70% for more than five years," Proul explained.

Loyal clients and a sophisticated pool of candidates continue to play a part in Century Group's successful run according to Proul who concluded, "We look forward to 2010 as a year of significant growth for Century Group and its client base as we enter a new decade together."
